

Please keep K-LOVE on the air. I have raised two young men and have one more just entering the teen years. Keeping moral entertainment available to them is so difficult yet so important. Idaho is an isolated state with a minimal amount of diversity. We live in a predominantly LDS community and do not belong to that religion. It is very difficult to not feel isolated at times from the Christian religions of the world. I listen daily to K-LOVE to fill this need. While my son's listen to many secular stations, some I would wish they did not they do listen to K LOVE when with me and actually enjoy it. Please do not take this one commonality away. Thank you
